

Introducing Northstar Auto-Intelligent Point-of-Sale

Sophisticated Solutions, Smart Technology, Simple to Use

Unparalleled Innovation in Service to Members

Auto-Intelligent Point-of-Sale is an innovation that was conceived to address two key concerns specific to private clubs:

- The goal of providing an unparalleled and personalized experience to each member of the club;
- The goal of drastically reducing the amount of time servers spend at POS workstations, providing more time to spend with the members.

Northstar Technologies' Auto-Intelligent Point-of-Sale...

...automatically customizes itself based upon what each member has ordered in the past

...presents the server with a member-specific POS menu (rather than simply a list of preferences) from which to make selections

...tracks how a member orders his food, and automatically enters all modifiers and special comments whenever an item is ordered

...accomplishes all of the above real-time, with absolutely no user intervention whatsoever (no data entry, no manual processes to run). Servers simply use the POS as they always have, and it continuously customizes itself...really!

Seat	Qty	Menu Item	Group	Price	Menu							
1	1.00	Sirloin Burger	1	\$5.95	Daniel's Menu	Iroquois Lunch	Beverage	Iroquois Dinner				
		Cheddar		\$0.15	Daniel's Categories							
		No		\$0.00	Soups & Salads	Sandwiches	Non-Alcoholic Beverages	Beer	Red Wines	Popular	Iroquois	
		Bacon		\$0.00	Desserts	Beverage Items	Food Items					
		Cottage Cheese		\$0.00	Daniel's Items							
		Medium Well		\$0.00	Hot Sandwiches	Open Steak	Reuben	Roast Beef Dip	Sirloin Burger	Mush Quiche-Special (4)		
Subtotal				\$6.10								
Tax & Other Charges				\$1.60								
Tip				\$0.00								
Total				\$7.70								

When you assign a member to the check, AIPOS instantly creates a POS menu for that member of his favorite items. Additionally, when the server selects an item, AIPOS automatically enters the member's typical choices for modifiers, as well as comments

With Northstar Technologies, your investment will remain on the cutting edge of technology, and be complemented by the service and attention you expect!
